## A woman used yeast to make bread

Today's aim is to find out how God's family grows.

Matthew 13:33

Help your child identify the things on the woman's table: yeast, flour, water, dough being kneaded, dough rising, risen dough.

Then help your child to point to each object in turn and tell the story of how the small piece of yeast made the flour grow into lots of dough, ready to be baked into bread.

Why not make some bread together this week? Try using a pack of bread mix, explaining that the yeast and flour are already mixed together. Match your dough to the pictures on this sheet as it rises!

The Bible story is on **Big Bonus Sheet C**.

## Telling people about Jesus

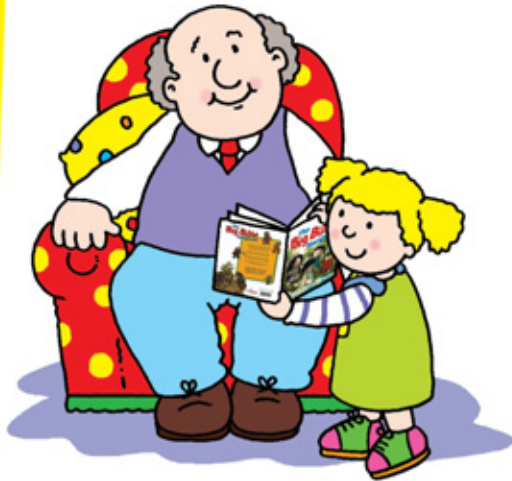

Look at each picture in turn and talk together about the different ways in which Phoebe tells her friends about Jesus.

Explain that as we tell others about Jesus, his family grows – and more people want to join it. Help your child draw a line from Phoebe to each picture, after chatting about them.

These are things a child can be encouraged to do with adult help. Perhaps you and your child could try one together during the next week? Many young children are instinctive evangelists, but loan them your adult wisdom in the choice of who to talk to among their family and friends.

God's family grows when we talk about Jesus.

Phoebe likes telling her friends about Jesus.

talkabout

What else could Phoebe do to tell her friends about Jesus? What could you do? Who will you tell? Draw them here.

Draw lines from Phoebe to everyone she's telling about Jesus.
